Weak quarter with normalization in inventory

Quick Pointers:

- CP declined 25.2% due to focus on channel normalization.
- GP margin contracted 80bps due to lower volume in high-margin categories.

We downward revise our FY27/28 earnings estimate by 17%/11% with contraction in volume and margin due to increase in commodity prices, and downgrade the rating to 'Accumulate'. Consumer Products (CP) segment declined 25.2% YoY, driven by de-growth across categories due to channel stock normalization; water heaters, however, reported flattish growth. GP margin contracted by 80bps YoY, due to lower volume across high-margin categories and CP EBIT margin contracted due to lower volumes and operating deleverage. Lighting business momentum remains strong, supported by expansion into adjacent categories such as switchgear, solar products, and wires, leveraging brand strength and distribution reach. BJE has implemented a price hike of 2-5% effective from Feb'26 to offset commodity inflation. BJE expects CP EBIT margin recovery to be driven by cost efficiency measures. Channel inventory days have reduced by ~30%. We estimate FY25-28E revenue/EBITDA/PAT CAGR of 7.4%/11.6%/15.2%. We value the stock at 25x Mar'28 EPS (earlier 30x) and arrive at TP of Rs449 (earlier Rs597). Downgrade to 'Accumulate'.

Q3FY26 performance: Revenue declined by 18.5% YoY to Rs10.5bn (PLe: Rs13.3bn). CP revenue declined by 25.2% YoY to Rs7.7bn, while Lighting revenue grew by 9.1% YoY to Rs2.7bn. Gross margin contracted by 80bps YoY to 30.4% (PLe: 30.4%). EBITDA declined by 85.2% YoY to Rs129mn (PLe: Rs759mn), with EBITDA margin contracting by 550bps YoY to 1.2% (PLe: 5.7%), driven by higher other expenses at 20.5% of sales vs. 16.7% in Q3FY25. CP reported an EBIT loss of Rs360mn and margin contracted by 960bps to -4.6%, while Lighting saw EBIT margin expansion of 470bps YoY to 6.8%. The company reported a net loss of Rs341mn, including a JV loss of Rs49mn and a one-time labor code impact of Rs288mn.

Concall highlights: 1) Switchgear launch saw a good response from trade partners; however, stock creation took longer than expected, with secondary sales starting from Jan'26. 2) BJE has forayed into the wires business after evaluating outsourcing vs. in-house manufacturing options; it expects the outlook to remain positive. 3) Consumer Lighting recorded single-digit growth with double digit growth in Professional Lighting and emphasis on volume plus value growth in focus categories. 4) Summer products (fans and air coolers) typically contribute to 20-25% of total revenue, but till 9MFY26 the contribution was only ~12.5%, leading to higher inventory buildup. 5) BJE has implemented a price hike of 2-5%, which will be effective from Feb'26, to offset commodity inflation. 6) The management expects normalized performance and visible growth improvement from FY27. 7) The company has launched 9 new products in CP, 69 in Professional Lighting, and 65 in Consumer Lighting.
