## Sharp cut in NSR on lower trade volume share

### Quick Pointers:

- Higher non-trade (NT) share along with falling prices hurts Q3 avg NSR; NT volume share increased 4pp to 51% on Surat GU commissioning in Sep'25.
- Capex run-rate remains weak; guidance is ~Rs7bn/Rs17 for FY26/27E.

**JK Lakshmi (JKLC) reported a weak operating performance in Q3FY26 on sharp 10% QoQ cut in average realizations impacted by higher volumes in non-trade segment post commissioning of 1.5mtpa Surat GU in Sep'25, at a time when prices were on correction mode amid GST rationalization. Volumes grew by 8% YoY, on higher institutional sales in Gujarat and Mumbai. P&F costs declined on lower power costs, while freight costs fell due to reduced lead distance; which couldn't negate NSR fall, resulting EBITDA/t of Rs625 (PLe Rs816). Mgmt. indicated that non-trade prices have increased by Rs10-15/bag across regions post Dec'25, with trade prices expected to follow on strong demand momentum and fuel cost inflation.**

**JKLC remains focused on growth via capacity additions while it has demonstrated good progress on the cost front through a higher green power share and operational efficiencies, which should support margins over the long term. We cut our estimates for FY27/28E by 2%/1% on lower pricing assumption and expect JKLC to deliver EBITDA/volume CAGR of 21%/10% over FY25-28E. The stock is trading at EV of 9x/8.7x FY27E/28E EBITDA. Maintain 'BUY' with revised TP of Rs881 (earlier Rs891) valuing at 10x EV of Mar'28E EBITDA.**

- Weak revenue growth on lower cement NSR:** Cons. revenue increased 6% YoY to Rs15.9bn (+4% QoQ; PLe Rs17.3n) on weaker cement NSR. Cement volumes grew 8% YoY to 3.28mt (+15% QoQ; PLe 3.27mt). Realization declined sharp 10% QoQ to Rs4,841/t (-2% YoY; PLe Rs 5,281/t) on sharp increase in non-trade volume share where price declines have been sharper post Sep'25. Surat grinding unit commissioning was at a time when trade demand scenario was weak amid GST announcement and institutional demand was relatively stable but prices were falling.
- EBITDA/t declined on higher RM and lower NSR:** EBITDA grew just 2% YoY to Rs2.05bn (-1% QoQ; PLe Rs2.67bn) on poor NSR and tad higher RM costs. P&F costs declined by 2% YoY to Rs1,131/t on RE capacity reaching to 48% in Q3FY26. Freight costs declined 2% YoY to Rs1,119/t. RM costs/t increased 5% to Rs952. Other expenses declined 1% YoY to Rs662/t. EBITDA/t works out at Rs625 (-6% YoY/ -15% QoQ) vs PLe Rs816/t. PAT grew declined 9% YoY to Rs0.57bn (-29% QoQ, PLe Rs0.93bn).

## Q3FY26 Conference Call Highlights:

### Volume & Pricing

- Trade share declined to 49% vs 53% QoQ led by higher institutional sales in Gujarat and Mumbai post the Surat commissioning, while weak trade demand further pressured mix, resulting in a sharp QoQ realization decline.
- Management indicated that the shift is temporary, with trade share already improving in December and January.
- Trade prices remained broadly stable, and JKLC's price gap with larger peers did not widen. Mgmt. highlighted that non-trade price correction exceeded 10% in certain markets.
- Post December, non-trade prices have increased by Rs10–15/bag, while trade prices are expected to improve supported by healthy demand, rising fuel costs, and expectation of narrowing trade vs non-trade price gap.
- Demand momentum remains healthy, and the company expects double-digit volume growth in Q4, broadly in line with industry growth (~7% for FY26).
- Management expects a similar growth trajectory in FY27, supported by available headroom at Surat, Udaipur, Jhajjar, and Cuttack.

### Operational

- Clinker sales stood at ~0.151mt in Q3FY26 vs ~0.17mt in Q2FY26 and 0.723mt in Q3FY25, while clinker utilization remained strong at ~90% in Q3FY26.
- Clinker factor was 1.44x; the company aims to increase blended cement share from 62% to ~67%, which should improve efficiency.
- Non-cement revenue stood at ~Rs1.47bn, which includes ~Rs0.67bn for RMC and Rs0.56bn for AAC blocks. EBITDA margins remain low at ~4%.
- Depreciation and interest costs increased due to the commissioning of the Surat plant.

### Costs

- Fuel cost stood at ~Rs1.56/kcal and is expected to rise to Rs1.58–1.60/kcal due to higher petcoke and coal prices.
- Employee cost declined due to productivity initiatives; however, management expects costs to stabilize rather than decline further.

### Capex and Balance Sheet

- Capex is expected to be ~Rs6.5–7bn for FY26, Rs16–17bn for FY27 and Balance of Rs30bn for FY28.
- ~Rs3.5bn has been incurred in 9MFY26 and Rs4bn is expected to be spent in Q4FY26.
- Net debt/EBITDA is expected to remain below 3.5x.
