Incremental stress reducing as envisaged

Quick Pointers:

- Good quarter with core PAT beat driven by better provisions.
- NIM and credit costs can surprise positively.

KMB saw a good quarter; core PAT beat PLe by 2.3% owing to better asset quality resulting in lower provisions. NII/NIM was a tad higher despite drag of increased liquidity (4bps impact). SME, BuB, housing and corporate continue to remain asset growth drivers. As expected, unsecured stress in reducing which has contributed to consistent decline in credit cost from 115bps in Q1FY26 to 73bps in Q3'26. Led by strong capital adequacy (21.5% CET-1) and comfortable LDR (85-87%), KMB is well poised to deliver above system level credit growth of 15-18% over the medium term (we are factoring 16% CAGR). Acceleration in loan growth and decline in credit costs remain key levers to re-rating; assuming stable interest rates, NIM and credit costs can surprise positively. With core RoA of 1.9% in FY28E, KMB remains of our preferred picks. We keep multiple at 2.3x on Sep'27 core ABV with a TP at Rs500. Retain 'BUY'.

- Steady quarter; slight beat on core PAT aided by better asset quality:** NII was a tad higher at Rs75.6bn (PLe Rs74.8bn) led by better NIM (calc.) which came in at 4.55% (PLe 4.53%); reported NIM was flat QoQ at 4.54%. Credit and deposit growth were in-line at 16.1%/14.6%. CASA was 41.3% (42.3% in Q2'26). LDR increased to 88.6% (87.5% in Q2'26). Other income was Rs28.4bn (PLe Rs28.8bn); fee was 3% higher. Opex at Rs50.2bn was 3.3% above PLe led by higher staff cost; labor code impact was Rs955mn. Core PPOp at Rs50.9bn was-in-line; PPOp was Rs53.8bn. Asset quality improved; GNPA was 1.3% (PLe 1.4%) due to lower net slippages. Gross slippage was Rs16.1bn (PLe Rs17.1bn) while recoveries were higher at Rs7.8bn (PLe Rs7.1bn). Provisions were lower at Rs8.1bn (PLe Rs8.8bn) owing to lower NPA provisions. Core PAT was 2.3% above PLe at Rs32.3bn while PAT was Rs34.5bn.
- Sequential loan growth was well spread:** Credit growth at 3.9% QoQ was broad based mainly attributable to agri 8%, SME 6.5%, BuB 5.2%, corporate 3.2% and HL 4.5%. Housing credit growth was healthy owing to product proposition as an anchor product offered to affluent customers, despite competition. Momentum in SME/BuB remains strong due to elevated utilization levels following surge in demand led by changes in GST rates. Management continues to remain cautious on retail CV since it is witnessing stress. Credit flow in PL is improving with stronger underwriting. While MFI disbursals have improved, faster rundown arrested growth.
- NIM guided to slightly improve in Q4FY26:** NIM was flat QoQ due to increase in short term liquidity that was deployed in treasury assets; adjusted NIM was up 4bps QoQ. Bank expects NIM to improve slightly in Q4FY26; there would be an impact of 25bps repo cut that would be offset by remaining deposit repricing, impact of CRR cut and day convention. We are factoring decline NIM QoQ in Q4FY26 due to higher deposit requirement. Over medium term, opex rise due to acquisition may be offset by automation and digitization.

Exhibit 1: Slight beat on Core PAT aided by better asset quality.

Q3FY26 Concall Highlights

Balance Sheet

- 3QFY26 saw uptick in growth led by festive season. Flows into capital market/commodities put pressure on deposits.
- Bank is growing gradually in unsecured segment. Bank remained cautious in growing retail commercial vehicle book while addressing the credit concerns.
- In business banking there is a sustained demand for working capital across sectors driven by a surge in consumption trends following the changes in GST.
- Personal loan portfolio acquired from Standard Chartered last year performed better than expected.
- Construction equipment was impacted by slower infra-activity and project execution challenges.
- Tractor Finance grew well primarily due to GST rate cut, government support on subsidies and favorable rural sentiment due to good monsoon monsoons extending into early November as well as soft agri commodity prices.
- Retail microcredit remained flat QoQ, mainly due to scheduled repayments offsetting current disbursal rate. Bank has started covering our microcredit loan disbursements under CGFMU Credit Guarantee Scheme post merger of BSS and Sonata in October.
- Agri/SME book grew well supported by pickup in working capital utilization and a strong growth in new-to-bank customer acquisition.
- LAP stood at Rs550-600bn of the mortgage book.
- Net worth increase in Q3 included about Rs20bn unrealized gain on valuation of strategic investments in KFIN and MCX.

Profit & Loss

- Bank reduced its reliance on libor link SA, which helped in getting a higher cost of fund benefit.
- During the quarter, bank witnessed higher short-term liquidity which was deployed in treasury assets. Excluding this, NIM improved by 4bps QoQ to 4.58%. Moderate increase in NIM is expected in Q4FY26.
- Fee income saw a healthy growth contributed mainly by FX, debt capital and distribution income.
- On opex bank intends to have the increased costs due to acquisition of customers that may be offset by automation and digitization. Bank is focusing on controlling the fixed costs. Over a period of time costs to assets ratio is expected to come down to 2.5%.
- Labor code related provisions at standalone level were Rs960mn. Pension liability which got the benefit of interest rate movement in Q2FY26 has reversed and normalized in Q3FY26. Excluding these staff cost was flat QoQ.

- Other opex went up due to i) marketing spend ii) upfront expenses for tractor finance disbursements iii) increased acquisition costs related to 811 products.

Asset Quality

- Bank expects normalization of credit costs to continue, though at a more moderated pace.
- Delinquency in overall unsecured portfolio have improved with better flow rates and collection efficiencies observed in the quarter
- Bank continues to see stress in retail CV.
- Microfinance and personal loan credit cost has started decreasing. Bank expects credit costs to further reduce in Q4.
- ECL impact is estimated to be less than 2% of net worth.
